

Avantis

64 X 42 MIXER

The Avantis digital mixer provides 64 mono input channels, 12 stereo FX returns and 42 flexible mix buses.

The third mixer based on our 96kHz XCVI FPGA engine, Avantis puts all our next-generation technology in a standalone 64 channel / 42 configurable bus console, with dual Full HD touchscreens, a super-flexible workflow with Continuity UI, extensive I/O options, add-on processing from our flagship dLive mixing system, and a rugged full metal chassis.

Fully compatible with all the dLive I/O cards, the full 'Everything I/O' range and IP controllers.

Key Features
